A VOICE

From the Executive Mansion.

MR. A. K. HAWKES—Dear Sir: The pan-
toscopic glasses you furnished me some time
since give excellent satisfaction. I have test-
ed them by day, and must say they are un-
equalled in clearness and brilliancy by any
that I have ever worn. Respectfully,
JOHN B. GORDON,
Governor of Georgia.

Growth of Chicago.

From a Little Village of Twelve
Houses

LESS THAN SIXTY YEARS AGO

It is To-Day a Magnificent, Active Busi-
ness City Covering an Area of One Hun-
dred and Seventy-Five Square Miles
and a Population of Over a Million.

WASHINGTON, Oct. 10.—The report of
the postal commission, of which First
Assistant Postmaster General Clarkson
is chairman, recently appointed by
the postmaster general to examine into
and report upon the postal needs of
Chicago, has been made public. A brief
history of the growth of Chicago in popu-
lation since 1831 and the increase of
postal business during the past five
years, compared with the increase in
postal business in a number of other
northern cities, is given in the re-
port. An enlargement of the postal
building and a considerable increase in
the clerical force of the office is recom-
mended.

The report says that in 1831 Chicago
was a village of twelve houses without
post routes or a postoffice. In 1841 it
was an incorporated city with a popu-
lation of about 4,000. In 1870 the popu-
lation was 304,000. The following year
the great fire destroyed 17,000 build-
ings. The burnt district covered nearly
three and a half square miles. Notwith-
standing this terrible setback Chicago is
now a magnificent, active business met-
ropolis, with the recently annexed
district, 175 square miles, with a popu-
lation of upward 1,000,000. The growth
of Chicago, the commission says, has
kept faith with the wonderful develop-
ment, prosperity of the northwest.

The report shows that the increase in
postal receipts during the past five
years has been regular and steady; the
increase during the past year having
been 12.7 per cent. against 10.9 per cent.
in New York; 8.5 per cent. in Philadel-
phia and 7.7 per cent. in Boston.

The main postoffice building, they
report, has many overcrowded rooms,
and is lacking in light. The retail
stamp clerk is located in a temporary
compartment with a canvas roof. Addi-
tional space in the office will soon be
available by alterations in progress. In
the near future, however, in fact at pres-
ent, more room and additional facilities
for the postal service of Chicago and the
northwest should be supplied. Good
and efficient service at this important
center, the largest postal exchange and
distributing point, between the east and
the west, and the northwest, means bet-
ter service for the great northwestern
section of the country.

A thorough reorganization of the free
delivery service is recommended. The
demands of the public for a better free
delivery service, the commission says,
are based on good grounds. An allowance
of 115 additional carriers and twenty-two
additional horses is deemed necessary
to provide for a thorough system of re-
organization. The commission thinks
that the large addition to the force re-
commended is justified by the great in-
crease in the population of the city and
the amount of mail to be handled; the
advancement of every important
commercial interest as well as the com-
mercial growth in every branch of trade
during recent years. The importance
of Chicago as a distributing point for
the vast territory tributary to it, suffi-
ciently indicates the necessity for the
best possible postal facilities at this
point. Such facilities will not only be
beneficial locally, but throughout the
entire Mississippi valley and a large
part of the west and northwest. An in-
crease of fifty-one clerks is also recom-
mended in the city delivery division.

The commission thinks that an exami-
nation should be made with a view to
improving the mail messenger service
of the city; and that pneumatic trans-
portations would greatly facilitate the
handling of the large quantities of mail
matter which must be conveyed daily
and hourly between the main office and
sub-stations in large cities. The salaries
of the additional force recommended
for the office by the commission will
amount to \$65,000 annually.

Talking of the World's Fair.

NEW YORK, Oct. 10.—W. W. Astor
gave a dinner at Delmonico's last night
to a number of prominent citizens iden-
tified with the world's fair movement.
The object was to facilitate exchange
of views on the subject of the expositi-
tion. The occasion was an informal
one, no set speeches being made.
Among the invited guests were Mayor
Grant, Vice President Morton, ex-Presi-
dent Cleveland, C. Vanderbilt, Senator
Hiscock, Gen. Sherman, C. M. Depew,
Wayne Mac Veigh, G. W. Childs, ex-
Governor Cornell, C. N. Bliss, John
Jay, W. R. Grace, John T. Agnew and
R. M. Hunt.

Both Loved the Same Woman.

PRIMA, O., Oct. 10.—Henry Huffman
and Lawrence Huter, both men of 45
years of age, courted the same woman,
a young widow named Lorzer. Huter
was the favored suitor. Huffman be-
came jealous and called on Huter yester-
day morning shortly after eight o'clock.
The men exchanged a few words when
Huffman drew a revolver and fired.
Huter fell at the first shot. Huffman
stood over him and fired a second time.
Huffman then shot himself in the neck,
killing himself. Huter still lives, but
cannot recover.

Accident in a Mine.

WILKESBARRE, Pa., Oct. 10.—There
was a big "squeeze" and fall of roof in
the Franklin mine yesterday. It began
just as the miners were going to work
and there were many narrow escapes.

PRIEST POISONED.

Arsenic Put in the Wine Used in the
Communion Service.

ONEIDA, N. Y., Oct. 10.—Rev. Father
James Kelly, of this place, is seriously
ill, and the circumstances connected
with his illness point to a crime of in-
fernal intent. He celebrated mass in
the rink yesterday morning and partook
of but two teaspoonfuls of the wine,
when he was at once seized with great
pain and a burning sensation at the
stomach, which he regarded as symp-
toms of poisoning. He quickly retired
from the altar, and making known his
situation sent immediately to a drug
store for an antidote. The emetic had
the desired effect of relieving his stom-
ach, but none too soon. A physician
was summoned, and applied the best
known remedies for poison. Father
Kelly was deathly sick when conveyed
to his home.

One of the parishioners yesterday went
to Syracuse to have the wine in the bot-
tle analyzed. Several tests were made,
each disclosing the presence of arsenic
in large quantities. The theory is that
some one entered the rink by means of
a false key Sunday or Monday night
and put the deadly drug in the bottle
of wine left there, as arsenic was found
scattered on the table on the altar.

STREET AFFRAY.

Between a Sheriff and a Prominent Cit-
izen, Both Being Wounded.

MONTGOMERY, Ala., Oct. 10.—News
was received from Hayville last night,
giving an account of a desperate duel
there between Eaton Haynes, sheriff of
the county, and Watt Austill, a promi-
nent citizen. In the duel Haynes was
shot and wounded in the shoulder, and
Austill was shot in the left arm, the
bullet breaking his arm and lodging in
his breast.

The trouble was occasioned by a
drunken friend of both parties, who
asked Haynes to drink with him, which
the latter refused to do. Hot words
were exchanged, and Austill interfered.
Haynes and Austill then exchanged in-
sulting epithets, and while the drunken
man was still between them, commenced
firing at each other.

OYSTER COMBINE.

The Price of the Delicious Bivalves Will
be Put Up, Owing to Scarcity.

CAMBRIDGE, Md., Oct. 10.—The high
prices of oysters in the shell, owing to
their scarcity, has made it necessary for
packers to put up prices, and looking to
this end there was a meeting of pen-
insula packers at Seaford yesterday, at
which members of twenty-five firms,
representing the trade in Cambridge,
Oxford, St. Michaels, Crisfield, Marion
and Seaford, were present.

The organization will be known as the
Peninsula Oyster Packing association,
and the committee appointed by the
president, W. H. Stevens, of Seaford,
will report at another meeting, to be
held in Seaford next Tuesday for the
operation of its business.

A CITY IN DANGER.

St. Cloud, Minn., Threatened By Prairie
Fires, Which are Coming Nearer.

ST. CLOUD, Minn., Oct. 10.—The
prairie fires are making progress toward
the city, and during the forenoon
burned their way to within a few rods
of the Manitoba West Side track and
the city limits. An immense amount of
hay was burned last night. N. P. Clark
loses over 100 tons.

The smoke is so dense in the city as
to make it impossible to see further
than a block. The fire is burning from
four to six feet in the ground and noth-
ing but a heavy rain can prevent a tre-
mendous loss of property.

AID ASKED

For Kansas Farmers Whose Crops Have
Failed for Four Successive Seasons.

TOPEKA, Kan., Oct. 10.—Governor
Humphrey has indorsed an appeal from
the people of Stevens county for aid,
and urges that a hearty response be
given to the call for food, fuel and
clothing.

A committee was appointed at Hugo-
ton, Stevens county, to canvass Kansas
for aid. The farmers in that county
have suffered four successive failures
of crops, and they are without the means
of support for the approaching winter.

Typhoid Epidemic.

OAKLAND, Md., Oct. 10.—An alarm-
ing epidemic of typhoid fever prevails
at Aurora, W. Va., about fourteen or
fifteen miles from Oakland. It is said
that the entire neighborhood for miles
around is infected. There is scarcely a
family with one or more of its members
prostrated with the disease, and in some
localities there are scarcely enough well
persons to nurse the sick.

A Valuable Present.

ST. JOHNSBURG, Vt., Oct. 10.—Col.
Franklin Fairbanks will give to this
city his entire collection of birds, min-
erals, shells and curiosities, and erect
a suitable museum to contain them.
The collection of birds especially is one
of the finest in the country.

Chalkley Leconey Indictment.

CAMDEN, N. J., Oct. 10.—The grand
jury has found an indictment against
Chalkley Leconey for the murder of
Annie Leconey, his niece, at his farm
house, near Merchantville recently.

A Shocking Decision.

AUBURN, N. Y., Oct. 10.—Judge Day
decides that the electrical execution
law is constitutional, and remands
Kemmler to the custody of the warden
of Auburn prison.

Shin Finding Bodies at Johnstown.

JOHNSTOWN, Pa., Oct. 10.—The remains
of three more victims of the flood were
taken from Stour creek yesterday. They
were not identified.

Exhibition Drilling.

Second Day of the Triennial
Conclave Knights Templar.

SOME BEAUTIFUL MOVEMENTS

Executed by the Different Commanderies
Taking Part—A Reception Tendered
the Knights by President Harrison at
the White House.

WASHINGTON, Oct. 10.—The feature of
the second day of the grand triennial
conclave Knights Templar was the ex-
hibition drill given at the ground of the
Washington base ball club. It was wit-
nessed by more than 4,000 people. The
gay attire of the knights was conspicu-
ous among the crowd, while the attend-
ance of ladies was very large. The day
was bright and breezy. As each com-
mandery marched on the ground it re-
ceived liberal applause.

The Apollo commandery, of Utica, N.
Y., the first to appear, executed the pe-
culiar evolutions of the Knights Tem-
plar drill with grace and precision.
Louisville, Ky., commandery followed,
and showed the spectators the perfec-
tion it had attained in the various dif-
ficult evolutions which they executed.
DeMolay commandery, of Louisville,
Ky., came next, and its execution of the
hollow square, Maltese cross, called
forth rapturous applause. This com-
mandery was especially smooth and
perfect in its marching maneuvers. At
the conclusion of their drill, Grand
Commander Ryan, of Kentucky, on be-
half of Mrs. John A. Stratton, of Louis-
ville, Ky., presented the DeMolay com-
mandery with a handsome basket of
flowers.

The Detroit commandery, sixty mem-
bers, came next, and for so large a body
of men did excellent work. Its march-
ing and countermarching and other
maneuvers of like character, were exe-
cuted in a manner that elicited admira-
tion and applause.

But it was the "boys" who carried the
day by storm. When the "little com-
mandery" from the Masonic Home at
Louisville, Ky., came upon the field,
accompanied by the De Molay and
Louisville commanderies, with their
bands playing "Old Kentucky Home,"
the spectators cheered vociferously. The
boys executed the most difficult man-
euvers known to the Knights Templar
manner drill and the various figures with
such perfection in detail that it was dif-
ficult to discover a flaw in any movement.
The applause that followed each move-
ment fairly kept the boys drilling to the
sound of constant cheering.

Reception at the White House.

WASHINGTON, Oct. 10.—The reception
tendered the Sir Knights and their
ladies by President Harrison at the
White House last night was as usual on
similar occasions a very brilliant affair.
The sidewalks by 7 o'clock in the vicin-
ity of the mansion were thronged with
Sir Knights and lady companions, and
long lines of people two and four
abreast extended for squares in differ-
ent directions waiting for reception to
begin. At 8:30 the doors of the White
House were opened and the people be-
gan to enter. The mansion was hand-
somerly decorated for the occasion, pot-
ted plants, tropical flowers and beds of
roses being everywhere in profusion.
The spacious east room was brilliantly
illuminated and, perhaps, never before,
with the gorgeous uniforms of the Sir
Knights, the handsome costumes of
their ladies had it presented a more ani-
mated appearance.

The president received the guests in
the red room, assisted by Mrs. Harrison,
Mrs. Winthrop, Mrs. Miller, Mrs. Noble,
Mrs. Rusk and all the members of the
cabinet except Secretary Proctor, who
is out of the city. They were intro-
duced to the president by Eminent Sir
Knight Myron M. Parker, of Washing-
ton, and he shook hands with each. As
the throng in waiting seemed endless,
the president soon abandoned hand-
shaking to expedite the passage of the
crowd. The Sir Knights and ladies
then passed along rapidly, saluting the
president as they passed by. The
guests entered the front doorway and
passed out in the rear portico into the
grounds south of the White House,
which were brilliantly illuminated with
Chinese lanterns and colored lights. A
steady stream poured in and out of the
mansion until 11 o'clock, when the
front doors were closed. There were,
perhaps, 20,000 people in line and wait-
ing to shake hands with, or get a
glimpse of President Harrison, but not
more than one-third of this number
reached him. It was a lovely moon-
light night, and many of the command-
ery bands escorted their members to
and from the White House, the ladies
accompanying the Sir Knights, march-
ing with them through the smooth as-
phaltum streets.

Enforcing the Foreign Labor Law.

NEW ORLEANS, Oct. 10.—The Plea-
yune Austin, Tex., special says:
Eighteen complaints have been lodged
against cotton planters living in Caldwell
and Hayes counties for importing cotton
pickers from Mexico, and they will be
brought to Austin for trial. Heretofore,
during good crop years, planters have
brought large numbers of Mexicans into
Texas to pick cotton. The operation of
the foreign labor law is working great
hardship and much cotton will be lost
in consequence.

Statue Unveiled.

OTTAWA, Ont., Oct. 10.—An imposing
ceremony took place at the Basilica yester-
day when Cardinal Taschereau, of
Quebec, in the presence of over 150
priests, unveiled a statue to the late
Bishop Guigue, first bishop of Ottawa.
A number of canons were also created
and several addresses were made.

PNEUMATIC GUNS.

Those of the Cruiser Vesuvius Officially
Tested.

PHILADELPHIA, Oct. 10.—The pneu-
matic guns of the cruiser Vesuvius were
officially tested on the Delaware river
yesterday. The vessel was in charge of
the board appointed by the secretary of
the navy, consisting of Commander C.
F. Goodrich, Lieut. Seaton Schroeder
and Lieut. Bradley A. Fiske. Lieut.
Schroeder, who will command the boat
when in commission, gave the word,
and the test was begun. This consisted
of the firing of five shots from each of
the three guns in ten minutes, and
throwing a shell weighing 480 pounds a
distance of one mile.

At the first test the required number
of shots were fired with satisfactory re-
sults, the shots striking the water near
the end of the measured mile within an
apparent radius of a few yards. Then
came an interval of silence which was
broken by the discharge of half a dozen
more shots, which struck the water in
about the same spot as the others. The
first missiles thrown from the guns were
dummy shells and the second were regu-
lar dynamite cartridges filled with
sand. It is understood that the delay
between the relays of shots was due to
slight imperfections in the mechanism
of the spozzia valves.

It is learned that the test was entire-
ly satisfactory. In the distance firing
the projectiles were thrown from 100 to
350 yards beyond the required mile. In
the test for rapidity of firing the con-
tract requires that loading and working
machinery the pumps and reservoir
should enable fifteen shots to be fired in
thirty minutes, five shots from each
gun. In the test fifteen iron plugs,
weighing about 325 pounds each, were
fired, and from the moment that the
loading of the first gun was commenced
until the last shot had been fired, seven
minutes and a fraction elapsed. The air
compressors were not working dur-
ing the time, although it would have
been allowable, yet at the end of the
firing the reservoir contained enough
air to fire eight more shots at one mile
range. Each of the fifteen shots was
fired with a volume of air which had
sufficient to carry the service shells one
mile. The pause between the first and
second tests was due to the shifting of
the Vesuvius by the tide.

Powderly Sued.

PHILADELPHIA, Oct. 10.—Messrs.
West & Rommel, on behalf of William
Whitty, has brought suit against Ter-
rence V. Powderly and other officers of
the general executive board of the order
of Knights of Labor in America. When
the strike occurred among the knitting
goods workers in eastern New York, the
district assemblies maintained the strikers
for some time, and then the strike
was endorsed by the general executive
board, who ordered the plaintiff to fur-
nish any member of the order with such
necessaries as they might need. Whitty
furnished about \$4,000 worth of gro-
ceries and has been paid all but a bal-
ance of \$50, which he claims the ex-
ecutive board guaranteed.

After the Last Four.

CHICAGO, Oct. 10.—The struggle to
get the last panel of four jurors in the
Cronin case was resumed in Judge Mc-
Connell's court yesterday. The three
men under consideration by the defense
when the court adjourned were excused
for cause. Nineteen veniremen were
examined yesterday, fifteen excused for
cause and four under consideration by
the defense when the court adjourned.
The defense has twelve peremptories
left and the state thirty-seven. Judge
Baker has refused to release Woodruff
on his motion for a writ of habeas cor-
pus.

Wires to Be Put Under Ground.

NEW YORK, Oct. 10.—At yesterday's
meeting of the board of electoral con-
trol, Mayor Grant declared that he
would at once take steps to compel the
electric light companies to properly in-
sulate their wires so as to make them
injury by contact with them impossi-
ble, and if the companies failed to im-
mediately take such action, he would
order the wires out even if the city had
to go without electric light until the
wires could be put under ground.

Impromptu Prize Fight.

SAN FRANCISCO, Oct. 10.—Tommy
Warren, early Tuesday morning, met
Jack Dempsey in a saloon, and asked,
in an insolent way, if Dempsey had
called him a coward and a fakir. Demp-
sey said yes. Thereupon Warren led
with his right for the "Nopareil's" face,
but fell short. Dempsey sprang up,
and in half a dozen blows stretched
Warren on the floor in a demoralized
condition, so that his backer had to
carry him out of the saloon.

Continued Collecting.

PHILADELPHIA, Oct. 10.—J. Wilbur
Parrott, formerly an agent for the Agri-
cultural Insurance company, was ar-
raigned before Magistrate Smith yester-
day on a charge of embezzlement.
It was shown in the evidence that Par-
rott was discharged from the company
on July 31, but continued to collect
money from different persons, amount-
ing to \$2,000, which he appropriated to
his own use.

A Banquet to O'Connell O'Connor.

TORONTO, Ont., Oct. 10.—A testi-
monial banquet was given to Oarsman
William O'Connor at the Albion hotel
last night. Mayor Clark presided, and
about 200 prominent citizens sat down
to the table. O'Connor was presented
with a check for \$1,000 and a diamond
pin.

A Young Lady Killed By a Train.

ATLANTA, Ga., Oct. 10.—Miss Hattie
Segars, a young lady aged 17 years,
while attempting to cross the railroad
track on the Western and Atlantic road,
near Smyrna, yesterday, was struck by
the engine of a passing train and in-
stantly killed.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

THURSDAY, OCT. 10, 1889.

TALKING of boomerangs, how about that ballot box scheme the Republicans sprung on Hon. James E. Campbell in Ohio the other day?

ONLY four Commanderies took part in the exhibition drill of Knights Templars at Washington City yesterday—one from New York and three from Louisville. DeMolay carried off the honors, but the little fellows from the Masonic Home were not far behind.

GOVERNOR FORAKER says he is after Democratic votes this year, and the Cleveland Plain Dealer remarks that "if there is a Democrat in Ohio who will vote for Foraker he ought to be drummed out of the party to the tune of Rogue's March." If the Buckeye Governor is relying on Democrats to help him out in the present fight, he is doomed to defeat.

THE city taxes paid in New York by the Vanderbilts and a few more millionaires amount annually to a snug fortune. One day this week the City Treasurer of that great metropolis received a check from the Vanderbilts and their railroads for \$600,000, the Astors paid in more than \$500,000 and the Consolidated Gas Company \$418,000. The total amount of taxes collected by the Treasurer that day was \$5,000,000, equal to over one-half the entire assessed value of property in Mason County.

THEY have a law at Portsmouth to prevent voters and others from congregating or loitering within one hundred feet of the polls on election days, and also to prevent any one from holding, exhibiting or tendering tickets within that distance or soliciting or influencing voters in casting their ballots. The penalty for violating this law is a fine of not less than \$20 nor more than \$1,000, or imprisonment for not less than 30 days nor more than 1 year in the county jail, or both, in the discretion of the court. This is an excellent law. If we had something like that here in Kentucky the disgraceful scenes often witnessed about the polls would never occur.

CONGRESSMAN MILLS talks sound doctrine and hard sense about the duty of Democratic Representatives at the approaching session of Congress when he says:

You may depend upon it that the rules of the House will not be changed by the Republican majority in any essential feature. Nor will we permit any of the proposed legislation looking to a control by Congress of the elections, for we see very plainly what the purpose of that is. The same can be said of the contest cases that will come up before Congress. We do not propose to let the Republican majority be further increased at blithely by throwing out Democratic members, as seems to be the purpose.

And the Democratic party is with Representative Mills in his determination to defend the rights of the majority of the people.—New York Star.

To Subscribers.

THE WEEKLY BULLETINS are mailed regularly every Wednesday evening, and if subscribers do not receive them promptly it is not our fault.

The package mailed for Washington on October 2nd was not delivered there until Saturday, October 5th—three days in reaching a point three or four miles distant. The mail service never was in a worse condition. The Government authorities surely could find out who is at fault, and an investigation should be ordered.

Stock and Crops.

Captain S. G. Rogers, of Carlisle, has prized 677 hogsheds of tobacco this season, and has over 200 hogsheds to prize yet.

The total hog packing in the West from March 1st is over 5,450,000 hogs, as against 4,350,000 a year ago, showing a gain of 1,100,000 for the season. The total packing last year to November 1st was 5,315,000.

"A series of experiments," says a correspondent, "have convinced me that when cows are deprived of salt for a period of even one week they will yield from 14½ to 17 per cent. less milk, and that of an inferior quality. Such milk on an average turns sour in twenty-four hours less time than milk drawn from the same or similar cows receiving salt, all other conditions being equal."

Auctioneer G. C. Goggin sold on the 8th instant, the following property belonging to the estate of the late Samuel Forman: Three cows and calves, \$122.50; sixteen three-year-old steers, \$824.55; four yearling steers, \$121; two yearling heifers, \$45.50; three yearling steers, \$61.25; one cow, \$24; two calves, \$17.50; one old horse, \$50.50; one old horse, \$40; ten shoats, \$32; one sow, \$10; sixty pigs, \$141; four fat hogs, \$34; seven stock hogs, \$87.65. Eight four-year-old steers were bid to \$4.10 per hundred and withdrawn.

BRILLIANT CLOAK OPENING.

On the 17th and 18th instant, two gentlemen from the largest factory East will be at our establishment and bring with them a choice line of

Ladies', Misses' and Children's Wraps,

which will surpass anything ever shown in the city. This will certainly be a grand opportunity for ladies wishing exclusive styles and special sizes, as measures will be taken and such alterations made as may be necessary in garments purchased of us. We extend to you all a cordial invitation to attend this beautiful display, and we hope you will come, as you will never witness anything like it again. Remember dates—17 and 18.

Cut Glass.

Until a few years ago cut glass, which is so very popular now, was made exclusively in Europe. For the past few years the cut glass industry has been growing in importance in the United States, and more and more cutting shops have been springing up here. All the skilled hands that we have are Englishmen and Scotchmen. The success of each piece of glass depends upon the skillfulness with which it is held against the revolving wheel—the stone thus cutting into the crystal. The value of cut glass depends almost entirely upon the workmanship, the glass itself constituting no appreciable item of the cost. A dozen uncut glasses might cost but \$2, but cut them artistically and they are worth from \$30 to \$40 a dozen.—The Epoch.

Change in Firm.

Mr. P. N. Bradford has bought Mr. O. H. P. Thomas' interest in the Ohio Valley Mill of Aberdeen, and the business will hereafter be carried on under the firm name of Bradford & Prentice. The Ohio Valley Mill is turning out a high grade of flour, the best known brands being the "Roller King," "Morning Glory" and "Victor." It is supplied with full roller process, and the new firm has one of the best little mills along the river.

Death of Captain John F. Ballenger.

Captain John F. Ballenger, one of the aged citizens of this city, died last night at 9:15 o'clock, at the home of his son Mr. J. M. C. Ballenger, on East Third street. Death resulted from nervous exhaustion. The deceased had been in failing health for some time.

Captain Ballenger was seventy-nine years and three months old. He was born on the Calvert farm near the fair grounds where he was, in his younger days, engaged in the plow-making business with his father. He afterwards commanded the steamers Judge McLean, Clipper No. 2 and Circassian in the Maysville and Cincinnati trade. He was also interested in a saw mill here in Maysville some years ago.

His wife, two sons and one daughter survive him. The funeral will take place some time to-morrow.

Now is the Time to Subscribe.

Judge David Davis, in speaking of newspapers, had this to say: "Each year the local paper gives from 500 to 5,000 in free lines for the benefit of the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for his town than any other ten men, and in all fairness, man with man, he ought to be supported, not because you happen to like him or admire his writing, but because the local paper is the best investment a community can make. It may not be brilliant or crowded with more thoughts, but financially it is of more benefit to the community than the teacher or the preacher. Understand us now, we do not mean morally or intellectually, but financially; and yet on the moral question you will find that most of the local papers are on the right side of the question. To-day the editors of the local papers do the most work for the least money of any men on earth."

Railway News.

The Fleming Gazette wants its little "Kindergarten railroad" converted into a standard gauge, and claims the business would justify such a change.

The new time-table of the Big Four shows that forty regular trains are handled on the Cincinnati division daily, and to this must be added fifteen to twenty special trains each day when business is good, as at the present time.

The Kentucky Union expects a big lumber traffic when the projectors shall have obtained a Western connection. One of the largest saw mills in America is just getting ready to turn out 150,000 feet of lumber in ten hours at Clay City, which is directly on the route.

Probably the longest "bee" line railway in the world is from Buenos Ayres to the foot of the Andes. It covers 340 kilometers, or about 275 miles, and is as straight as an arrow. The highest grade is about three feet to the mile. It crosses no ravine and no stream, and therefore no bridge.—Exchange.

Destroyed by Fire.

A Magnificent Mansion Burned at South Bend, Ind.

THE LOSS WILL REACH \$175,000.

Many Valuable Art Treasures Destroyed. One Wing of the Michigan Penitentiary Burned—Fire on a Steamboat—Other Losses Caused by Fire.

SOUTH BEND, Ind., Oct. 10.—About 3 o'clock yesterday morning Tippecanoe Place, the mansion of Hon. Clem. Studebaker, one of the finest in the northwest, was discovered to be on fire. Mrs. Studebaker noticed smoke in the house, and after a search found a fire in the closet on the first floor. When she opened the door the flames rushed out, ran up the elevator and stairway, to the fourth floor and roof.

Owing to the absence of Mr. Studebaker, who is with the American congress on its tour through New England, and her son and daughter who are in Cincinnati, Mrs. Studebaker was alone with her grandson, Miss Isabel Milburn and several servants. The grandson was sleeping on the fourth floor near the nurse's room, and to him Mrs. Studebaker ran, through flames and smoke, screaming to alarm the others. She reached the room and rescued the child, but was severely burned about the head, face, neck and shoulders. The child was but slightly burned. Mrs. Studebaker escaped in her night clothes and barefeet. The servants aroused by Mrs. Studebaker's cries and Miss Milburn also escaped in their night clothes. The nurse girl, Louise Weller, was cut off by the flames and slid down from the fourth floor on a water pipe and escaped unhurt.

Although the fire department worked hard it was 7:30 o'clock before the fire was extinguished. The upper floor was gutted by the flames and many valuable art treasures destroyed. Fire, smoke and water also practically destroyed everything on the floors below. Very little furniture was saved. The loss will reach \$150,000 to \$175,000, insurance about \$60,000. The building was but recently completed and cost about \$250,000. It was built of cobble stone, was four stories high and furnished magnificently. A reception to the delegates of the Three Americas congress was to have been held there Oct. 19.

Heavy Loss in Cotton.

SAVANNAH, Ga., Oct. 10.—Fire which started in the lower hydraulic cotton compress yard yesterday destroyed that compress and the Tyler compress, and five ware houses, with 4,900 bales of cotton. The British steamships Napier, Cypress and Carlton were in great danger, but were towed safely from the wharves. The Carlton was somewhat blistered. The wharves took fire, but were saved. There will be hardly any salvage on the cotton. The loss is estimated at \$400,000. There is an insurance of about \$95,000 on buildings, presses, etc., and the cotton was well covered by floating policies. The fire will not interfere with the handling of cotton as there are plenty of reserve presses that can be brought into use. The cause of the fire is not known. It originated among the cotton in some way.

A Steamer Saved from Destruction.

NEW ORLEANS, Oct. 10.—The Times-Democrat's St. Joseph special says: About 5 o'clock yesterday evening, while the steamer T. P. Leathers was rounding to at Bonduant's landing, fire broke out in the cotton on the larboard guard. It spread rapidly, but as there was no wind, the captain and crew, by throwing the seventy burning bales overboard, were able to save the boat, undamaged. It was a quick piece of work, showing great presence of mind, good judgment and excellent discipline on the part of the officers and men.

Fire in a Penitentiary.

JACKSON, Mich., Oct. 10.—The east wing of the state prison burned yesterday. The fire started in the west end of the building, and with a strong gale from the west to carry it, could not be controlled until the flames had swept the length of the wing, 127 feet, to the prison wall, and burned themselves out. Loss, \$35,000. The wing burned is the one that was destroyed in a similar way nine years ago, and it was used for storage, school and library purposes. All the books in the library, valued at \$4,000, were destroyed.

Fire in a Register's Office.

NEW YORK, Oct. 10.—A slight fire in the basement of the register's office yesterday afternoon caused much excitement, as the building contains all the deeds, mortgages, etc., relative to property in the county, and it was feared that great damage would be done. Fortunately the fire was confined to the basement, and the loss is not large.

Loss to a Railroad.

SCRANTON, Pa., Oct. 10.—Fire last night destroyed the head house of the Bellevue shift, owned by the Delaware, Lackawanna and Western Railway company, causing a loss of \$25,000. An engine and boiler house were also burned. Three men who were in the shaft at the time narrowly escaped death.

Bavarian Brewery Burned.

BERLIN, Oct. 10.—A fire which broke out in the town of Oetheim, in Bavaria, early yesterday morning, destroyed a brewery, several forage stores, the hotel and a number of warehouses and other buildings. The loss is heavy.

Tin Plates Manufacturing.

PITTSBURGH, Oct. 10.—Arrangements have been perfected for the establishment in this city of an expensive tin plate mill. Four and a half acres of ground have been purchased upon which the plant will be erected within one year. The property selected is known as Glenwood park, on the line of the Baltimore and Ohio railroad and near the Monongahela river. The names of the capitalists interested have not yet been made known.

Dr. Braibury pleaded nolo, and was sentenced to pay \$350 fine.

A Lynching in Prospect.

WAPAKONETA, O., Oct. 10.—Word has been received here that a 14-year-old girl was outraged while on her way to school yesterday morning at Glynnwood. She was so badly injured that it is feared she will die. The child recognized her ravisher, who is one of the well known citizens, Jim Glynn, a relative of the man after whom the place is named. The whole community are now out hunting for Glynn, and if he is captured he will surely be lynched.

Lost at Sea.

CHICAGO, Oct. 10.—Mr. F. C. Brown, agent of the Inman company here, has received a telegram from New York as follows: "Johannes Johansen and Martine Jansen, steamer passengers, booked from St. Paul, are reported by cable from Liverpool as missing from the City of Paris, and are supposed to have been carried overboard during a hurricane on Monday last. William Dettler, a child of 6, is also missing. No other casualties."
